

Explore ways to bring hands on learning to young children, from toddlers through early elementary students, with this **FREE** workshop!

AM: ECSTEAM

PM: Make-and-Take

For early learners, STEAM is exciting, and it is everywhere! In this PDIS certified workshop, which is focused on how to scaffold “play” into powerful learning experiences, participants will play as students but think like educators. After demystifying the STEAM acronym, we will build everyone’s expertise in using repurposed materials to provide opportunities for exploration, inquiry, and scientific thinking. We will also provide practical tips – plus take-home materials – to make it almost effortless to ensure kids are enjoying STEAM opportunities every day!

After lunch, learn some great strategies to turn simple, repurposed and recycled materials into engaging and fun activities for young children! All participants will leave with five activities and the knowledge of how to use them with their kiddos.

October 26th from 9am to 2:30pm, lunch will be provided.
YMCA of the Rockies, Legett Youth Building
All participants will receive a 5-hour certificate of completion.
