

CONFIDENT AND RESOURCEFUL INFANTS AND TODDLERS

BASED ON MAGDA GERBER'S EDUCARING APPROACH

Come discover Magda Gerber's approach based on a set of basic principles that informs all adult-child interactions. These principles include basic trust, safe environments, uninterrupted play, exploration, active participation in caregiving activities, observation, clearly defined expectations, and much more.

We will learn and explore how these principles help caregivers see the world from the baby's perspective and give practical ways to respond to babies with care and respect.
