

Uncovering the Roots of Challenging Behavior

This training will guide teachers and providers in taking an introspective look at how our learning environments and emotional response to children's behaviors can actually encourage challenging behaviors in our programs. Participants will be encouraged to re-frame undesirable behaviors into opportunities for communication and create responsive environments.

"This training made me fall in love with children all over again by looking for the little things that make them special."

-Past training participant

Cost: \$15 if registered before
March 18, \$25 after.

When: Tuesday, March 26, 2019
6-8:30 p.m.
