## ABOUT MAYA

Maya earned her bachelor's degree in Child and Adolescent Development from her home state, California. Maya has worked in Early Childhood for 15 years with experiences ranging from in home Early Intervention work to in classrooms settings as both Lead teacher and Instructional Coach.

Early Childhood Education (ECE) coupled with ECE advocacy has always been a deep passion for Maya. She strives to make the lives of very young children rich in developmentally appropriate, relationship-forward interactions.

She made her way to Colorado by way of South Carolina, Arizona, and Wyoming. Maya is a first-time mom to a handsome 4-month-old boy. Outside of work, Maya's adventurous spirit takes her all over the world. She loves to find time for reading and crafting, and thinks everything could use a little glitter.
